

# Distinguish Yourself with the New CCIE

Software and networking grow more and more interconnected every day

**Intent-based networking** connects users, devices, apps, security intent, and policy

**Multi-domain solutions** cross enterprise, data center, service provider, and security

**APIs and programmability** drive new automation, agility, and scale

To capitalize on these opportunities, today's IT experts need to:

**Combine technical expertise with design skills** to get ready for digital transformation

**Master programmability, automation, and security** in complex infrastructure

So Cisco® is introducing new CCIE® certifications, retooled for today's technologies and business needs:

The qualifying core exam topics apply across a technology, including automation and programmability

The lab exam validates end-to-end lifecycle skills with complex infrastructure, from planning and design to operating and optimizing

Every new written exam earns an individual Specialist certification. You can earn as many Specialist certifications in as many technology areas as you like

With the new CCIE, you can take your place as a technical leader

**Technology areas include:**

Enterprise Infrastructure

Enterprise Wireless

Data Center

Security

Service Provider

Collaboration

Did we mention that hiring managers love certified candidates?

78%

of technology executives and managers consider technical certifications a critical success factor

99%

of organizations use certifications to make hiring decisions

**Take your place as a technical leader** in the fast-paced world of information technology

**Combine your technical expertise with design skills** to position your organization for digital transformation

**Distinguish yourself as the best of the best** from deploying to operating and optimizing complex infrastructure

**Add automation skills** to your areas of expertise

**Earn a Specialist certification** for passing the qualifying exam

**Link that CCIE certification badge** to all your social media profiles

New exams go live on February 24, 2020

Take your career to the next level with the new CCIE.
